- Calendula herbal soap
- Olive herbal soap

B) hand-washing soaps

Arawash hand-washing soaps contain coconut oil and glycerin, which make the skin soft and pleasant. The essential oil used in this type of soap is the best on the market and helps balance skin oil. These types of soaps are available in different packages and colors :

- 5-bar packaging in cellophane and in 24 cartons in white, pink, blue, green, yellow and purple with different essential oils
- 3-bar packaging in cellophane and in 48 cartons in white, pink, blue, green, yellow and purple with different essential oils
- 5-bar packaging in cellophane and in 24 cartons in white, pink, blue, green, yellow and purple with different essential oils
- Single-bar in pillow pack boxes wrapped with opaque cellophane in 96-item cartons in 6 colors: white, blue, green, yellow, pink and purple with different essential oils
- Polyester Packaging, paper and wax as well as the inner protective layer of paper that prevents the deformation of soap in four colors : white, pink, blue, and green. Package of 6-bar soap in a box offered in 12 packages.

C) Laundry soap

Animal fat-based laundry soap : This type of laundry soap is used to wash white clothes, curtains, and sheets. This type of soap is very suitable for skin allergies because of caustic soda and lemon essential oil and no harmful chemicals. This type of soap is widely used to remove greasy stains, blood, coffee and crayon stains on the fabric. It is offered in a 4-bar packaging with a weight of 140 grams per package wrapped with cellophane in a 12-pack carton.

Vegetable oil-based laundry soap : this type of soap removes stain very quickly and is one of the cheapest of all types of soaps. It is one of the cheapest soaps, and is also suitable for removing stains. In the global market their weights are offered in 100, 120, 150, 180, 200, 220, 250, 280, 300 grams

D) Bathroom soap :

Animal and vegetable oils as well as coconut or aloe vera oils are used to produce bathroom soaps. Coconut oil in the soap increases the consumption duration as well as its foam, and it makes the skin soft and pleasant. Aloe vera extract also has very beneficial health properties. It is effective in treating skin acne, sunburn, preventing hair loss, moisturizing the skin, relieving allergies and most skin disorders. This type of soap weighs 130 grams and is offered in a 6-bar box with cellophane cover in a 12-box carton.

E) Soap chips

Arawash Company is also supplying the following types of soap chips :

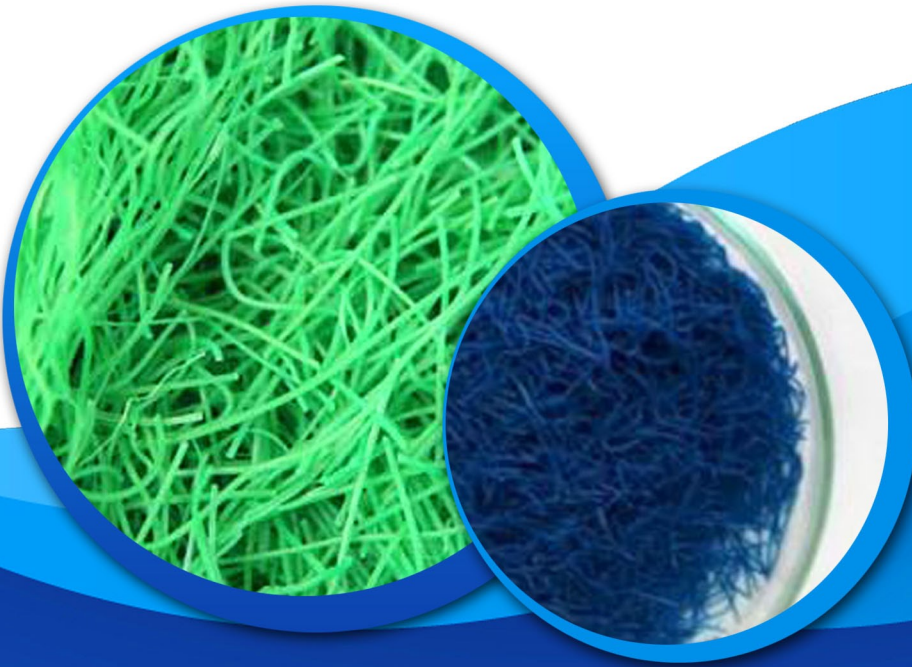

- 20/80 soap chips for hand-washing soap
- 15/85 Soap Chips for Bathroom Soaps
- Laundry soap chips
- Yellow laundry soap chips
- Industrial soap chip known as Fatty soap for industrial use in various industries such as petrochemicals, and etc.

Generally, the soap chips are packaged in bags, PP / PE laminate and 25 kg.

F) Soap powder

Many detergent powders on the market are made from materials such as sulfonic acid as the main raw material to create foam and detergent; Sulfonic acid is produced directly from petroleum products from a substance called LAB or benzyl alcohol. The use of these materials over time causes fading, damaging and staining fabric. After an extensive research and benefiting from the knowledgeable experts in this field, Arawash managed to discover a formula to preserve the white color of curtains and sheets. This product consumes less detergent powder, retains the taro fabric and the main color of clothes and does not need any softeners. This product is offered in a box of 500 grams and a 24-item carton.

G) Colorful soap noodles

Soap noodle is one of the new products of this company, generally used in detergent powders for washing-machines to control foam, make clothes softer and cleaner, and as a supplement in these powders in yellow, red, blue, fluorescent green, and fluorescent yellow as well as colorless types. This product can be ordered in packages in different weights and in bulk.

H) Baby soap

Coconut oil, castor oil, lanolin oil and beeswax in baby soap, makes children's skin softer and smoother and in addition to cleaning, prevents irritation, allergy, and itching. This product weighs 75 grams and is offered in a 72-item carton.
